

# Spill Station Emergency Response Spill Kit Sanitising and Servicing Your Safety is Our Safety COVID-19 Protocols

As a contracted supplier to the Commonwealth Department of Health, Spill Station Australia is an essential service provider and as such will continue to trade.

All businesses operating in Australia are required to have appropriate safety and emergency response equipment that is ready to respond at all times.

To assist you in complying with your legal health and safety requirements, Spill Station continues to inspect and restock your emergency spill response equipment.

To ensure the safety of our staff and customers, Spill Station Australia has commenced implementing a set of protocols to prevent the transmission of the SARS-CoV-2 virus that causes the COVID-19 disease.

To minimise unnecessary contact with your staff, our service technician will discuss a suitable time and location on your site to gather your spill response kits.

- Our technician will arrive at the agreed upon time and location where we will inspect and restock all kits.
- Once completed, your Spill Station service technician will thoroughly sanitise the outside of your refilled spill kits, ready for you to reposition around your site.
- The service docket will be immediately sent to you followed by the usage report once completed.

*Don't be caught short in the event of a spill.  
Contact Spill Station today to schedule your spill kit  
sanitise and service.*
